WHO WE ARE?

The National Association of Students in Business and Economics (ANESEC) was founded in the early 80's. In 1994, the ANESEC was officially registered and adopted a non-profit association status. ANESEC is co-founder of the Fondation des Universitaires en Sciences Economiques (FUSE) and serves as an advisory member to the Association des Cercles Luxembourgeois (ACEL). Today the association has over 500 members and is the only national organization representing the interests of Luxembourg business and economics students from all over Europe. The association is managed by a board of approximately a dozen representatives exercising their mandate as volunteers and for the good of its member students.

OUR YEARLY FLAGSHIP EVENT – THE CAREER FAIR

RENCONTRE ENTREPRISES ETUDIANTS

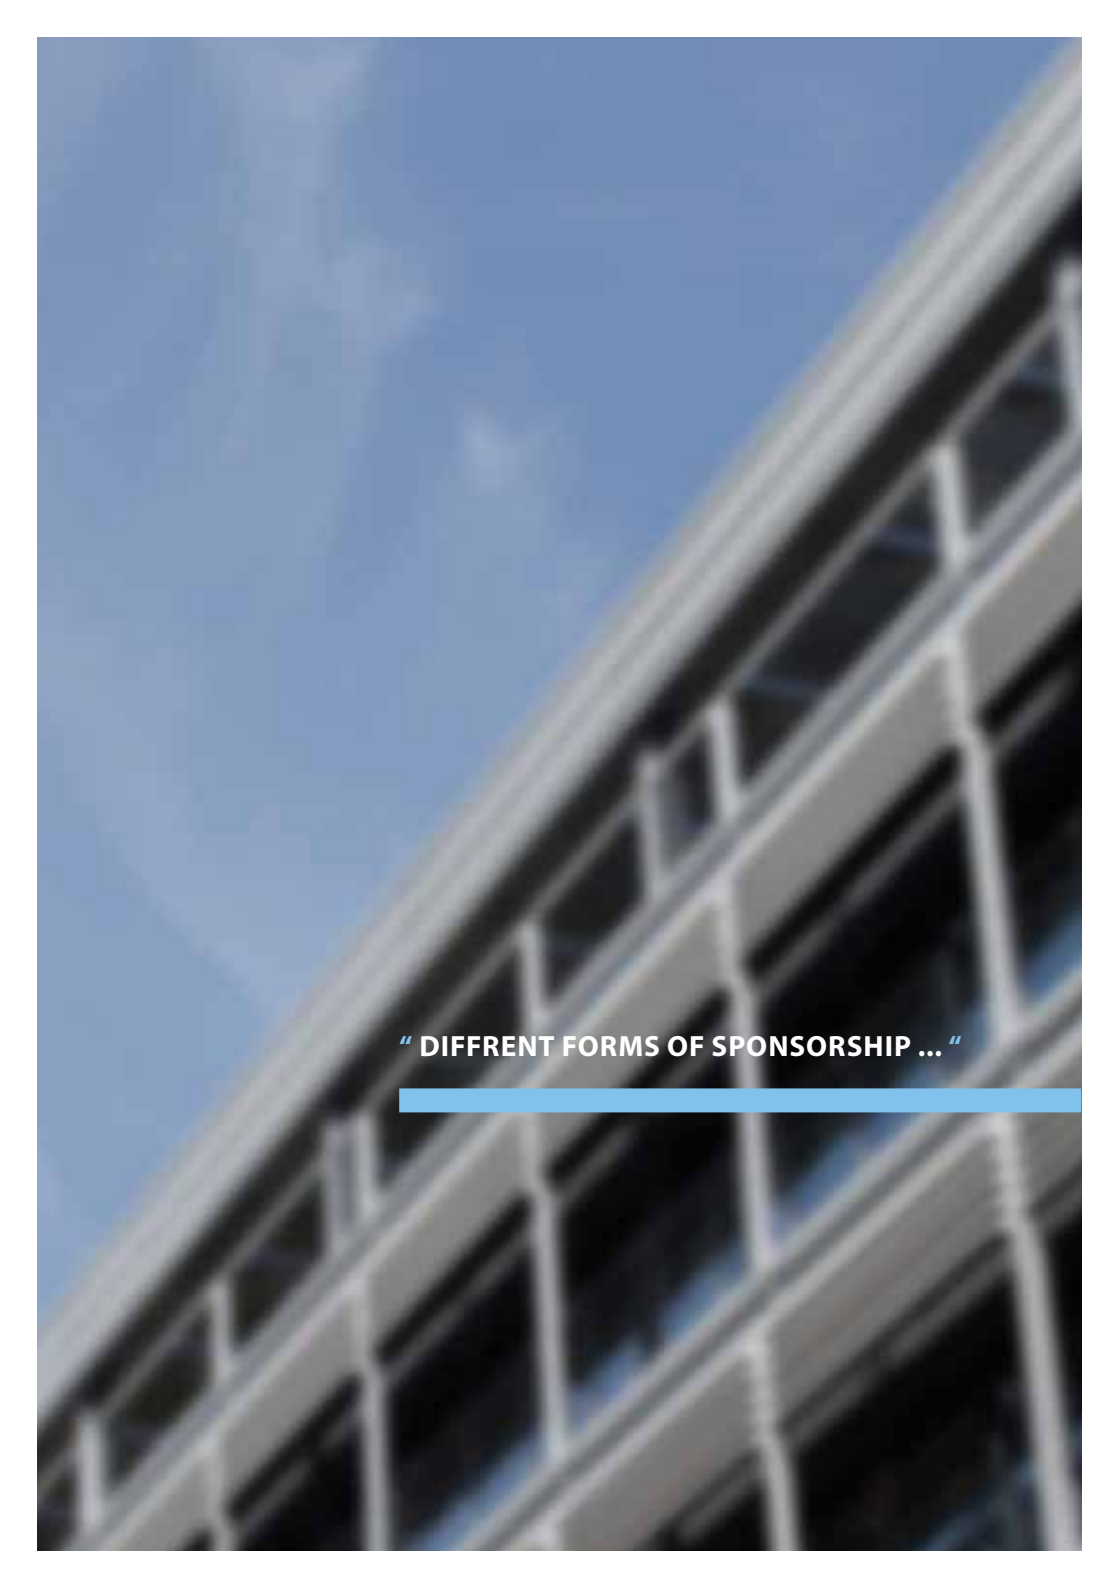

INFORM & RECRUIT, these features have always been the main goals of the Rencontre Entreprises-Etudiants (REE) business forum and career fair organized annually by the ANESEC. Created in the 1980's, the Rencontre Entreprises-Etudiants was the first job fair held in the Grand Duchy of Luxembourg. Designed by students for students, the REE is the place to be in order to get in direct contact with students and young graduates. In an exchange-promoting atmosphere, visiting students of the fair aim to shape their career plans and to learn about internship and employment opportunities offered by participating companies.

ANESEC has continually sought to improve the organization and services offered during its business forum. The renewed branding and tremendous

activity on social media (event website: www.ree.lu), the Luxembourg written press, television and prominent radio stations make the event very popular amongst Luxembourg business and economics students.

After the official opening by the President of the ANESEC and several personalities of the Luxembourgish financial and political scene, each exhibitor will be able to inform and educate students directly and on a personal basis at the Business Forum on the assigned stand.

Serving as an example, the Rencontre Entreprises-Etudiants allows graduates to participate in real-time simulations of job interviews.
